ays Canadians Will Dominate East of Hudson

Williamstown, Mass., Aug. 22 (AP).-
migration of French Canadians to
United States is increasing to
ch an extent that they eventually
ll control New England culturally
d religiously, Dr. Robert Dexter
id members of the Institute of Pol-
ts today.

Pointing out that of approximately
o million French-Canadians in the
ited States, more than one mil-
on live in New England, where they
mprise one-seventh of the popula-
on, Dr. Dexter said other students
the situation predicted that
rench-Canadians, due to their co-
sion and fecundity, eventually
ould dominate as a racial group
erything east of the Hudson river.

"They have political ambition as
ell," Dr. Dexter said. "They have
d two governors of Rhode Island.
here they are the largest foreign
oup; and they now have a Senator
om that state, where they really
ntrol the political situation."

The most problematical aspect of
e situation, he declared, lay in the
ct that French Canadians are not
sily assimilated, remain a separate
tity, frown on inter-marriage and
ing to their own language,
urches and schools.

"The international aspects of the
oblem are not many," he said.
French Canadians furnish our em-
oyers of unskilled labor with a
heap and docile labor supply. There
no danger of radicalism from the
rench-Canadian."

rection of a house of God, a boy's
rade school and village at Moose-
eart, Ill., have been drawn up at
he forty-first convention of the
upreme lodge of the world, Loyal
Order of Moose, in session here.

Officials of the order announced
hat 200,000 subscriptions already
have been made by various lodges
nd individuals and that next Satur-
day ground will be broken for the
irst building in the boy's village.
The campaign is to be carried out by
elling bricks at $1 each.

COOK'S GOOD POINTER DOG WAS TOO GOOD THIS TIME

Louisville, Ky., Aug. 22 (AP).—
Frank Cook is sorry he bought that
good bird dog. When officers raided
Cook's property yesterday they found
a still, 18 barrels of mash and 15
gallons of moonshine, but they
didn't find Cook.

Then Cook's pointer trotted out
of the house and "made a point" at
a patch of weeds. Officers kicked
up the weeds and found Cook.

"That dog has its good points,"
said Cook, "but that wasn't one of
them."

BUNGALOW BURNED AT ROSENDALE HEIGHTS

Wednesday evening a vacant
bungalow on Rosendale Heights was
destroyed by fire of unknown origin.
The Rosendale fire department
responded to an alarm but the fire
was beyond control when they
reached the scene. The bungalow
was said to be owned by a man
named Sherriff.

Mother of Eight to Hang.

Montreal, Aug. 22 (AP).—Mrs. Mary
Vlau, 43-year-old mother of eight
children, today was in jail at Hull,
Que., where she will be hanged to-
morrow for the murder of her hus-
band. Mrs. Vlau collapsed yesterday
when she was removed to Hull from
the Fullum street jail for women,
where she had beeen confined for
three months awaiting execution.
Philiberg LeFebvre, convicted with
Mrs. Vlau as her partner in the
crime, was in the same jail, also
under sentence of death.

School Man Killed by Train.

Wilmington, Del., Aug. 22 (AP).—
Albert T. Steelman, 48, assistant
principal of the new Warner Junior
High School here, was found dead
along the Baltimore and Ohio rail-
road on the outskirts of Wilmington
early today. His neck had been
broken and his skull crushed, ap-
parently the result of being hit by a
train.

Fire Board Has No Eligible List

Result of Civil Service Examination Held Some Time Ago Not Known Yet—Board Expects List Soon.

Although the local civil service board held an examination several weeks ago to make up an eligible list for the position of paid firemen in the Kingston fire department, the result of the examination is not known yet, and the fire board has not received the list from the civil service board.

It was stated by members of the fire board today that they had been informed it would be several weeks before the civil sevice board finished marking the examination papers.

Rickard Left Mostly I. O. U.'s

New York, Aug. 22 (AP).—The New York American today quotes Mrs. Tex Rickard, young widow of the famous fight promoter, as saying she was almost penniless although her husband was reputed to be worth $1,000,000 when he died.

Mrs. Rickard said she had received less than $5,000 from the estate and had little hope of getting any more.

"My financial situation right now is such that I must step out and get myself a job in order to support my daughter," the paper quotes her as saying.

Mrs. Rickard, who is living in a modest cottage in Flushing, N. Y., characterized many who had appeared to be friends of her husband during his life as "mere parasites whose one object was to keep their names on his payroll."

"If I could collect five per cent of the money that was owed to Tex, I would never have to worry. The I. O. U.'s he left would fill a good-sized scrap book, but not one of them appears to be worth the paper it is written on."

SAYS MRS. RICKARD'S PLIGHT IS "THE SAME OLD STORY"

Chicago, Aug. 22 (AP).—Jack Dempsey today characterized the financial plight of Mrs. Tex Rickard as "the same old story" of a man who had too much confidence in his friends.

The former champion, who received more than a million and a half dollars from fights promoted by Rickard, was not surprised after reading Mrs. Rickard's statement made in New York.

"Tex had too much confidence in his friends," Dempsey said. "He trusted everybody. If Mrs. Rickard says she is broke, she must be. She, of course, knows more about her affairs than I do.

"I knew things were in a mess. That is why I went to Miami last winter to try and straighten out Tex's dog track there. The law stepped in, stopped betting and made the thing more of a mess than it was."

HELD FOR DEATH OF FORMER HAMILTON FOOTBALL MAN

York, Pa., Aug. 22 (AP).—Accused of killing Arthur Keeports, 25, Spurgeon Kopp, 25, and Mussie Spotz, 60, of Red Lion, are being held pending completion of an investigation.

Red Lion police said Kopp and Spotz attacked Keeports last night while he was protecting his wife's sister, who is married to Kopp. Kopp and his wife had been quarreling. Keeports, who was a former football player at Hamilton College, Clinton, N. Y., was beaten and kicked in the abdomen. He died fifteen minutes after the attack. It is alleged by the police that the two assailants were intoxicated.

NEW PRESIDENT TO NIAGARA UNIVERSITY

Philadelphia, Aug. 22 (AP).—The Very Rev. John J. O'Byrne, C. M., president of St. Joseph's Apostolic College at Princeton, N. J., for the last seven years, has been transferred to the presidency of Niagara University, at Niagara Falls.

This announcement was made today as one of a number of changes by the Very Rev. Frederick Maune, provincial of the priests of the eastern province of the Congregation of the Mission, known as the Vincentian Fathers.

Father O'Byrne expects to assume his new duties about September 3. He was ordained 28 years ago.

Captured by Manchurian Bandits.

Harbin, Manchuria, Aug. 22 (AP).—Manchurian bandits yesterday kidnaped a Briton, C. H. Burton, big game hunter and member of the firm of Butterfield & Swire, and I. H. C. Godfrey, of the Harbin branch of the Commercial Union Company. The men were captured about 200 miles northeast of Harbin and are believed to be held for ransom. The British consul at Harbin asked the Chinese authorities to secure their immediate release.

Church Supper Fatal to Pastor

Sudden Death of the Rev. Henry W. Decker of Hurley Caused by Acute Indigestion Following Partaking of the Annual Church Supper.

The Rev. Henry W. Decker, pastor of the Hurley Reformed Church, died suddenly Wednesday evening of acute indigestion following his partaking of the annual church supper and picnic held at the church. Mr. Decker, who has been pastor of the church for about two years, was a young man well liked and highly esteemed by the members of his congregation and the residents of the village.

Following the serving of the supper, Mr. Decker was talking to members of the congregation when he was seen to suddenly collapse. L. C. Dixon, who was attending the supper, placed Mr. Decker in his car and rushed him to the office of Dr. Sibley on Main street, this city, where treatment for acute indigestion was given and the doctor advised getting the sick man back home. He rallied from the attack after treatment had been administered but on the way back to Hurley he became worse and on reaching the church it was found he had died. Dr. Sibley, who had followed Mr. Dixon to Hurley, pronounced the man dead.

About two years ago the Rev. Mr. Decker came to Hurley as pastor of the church and also occupied the North Marbletown pulpit. He was a man about 35 years old and was unmarried. While in Hurley he made his home at the John W. Brink residence in the village. His former home was in Rock Rapids, Iowa, where his mother and brothers reside.

His death was a gaeat shock to the people of the village, coming as it did without warning on a day of festivities. The body was taken in charge by A. Carr & Sons, undertakers, and his relatives notified.

WATER IN TANK CARS TO SAVE MONTANA TOWN.

Columbia Falls, Mont., Aug. 22 (AP).—Every available man of the Great Northern Railway and the United States Forestry Service were fighting a desperate battle today to save the town of Belton, on the border of Glacier National Park, twenty miles east of here, from being destroyed by a forest fire.

Park administration buildings located in the town were in the immediate path of the flames. All equipment was removed from the buildings and loaded on freight cars to be moved if the fire continues its advance on the town.

Tank cars of the Great Northern were pressed into service to carry 40,000 gallons of water from Coram near here to supplement the water supply.

Residents of the town except those who remained to fight the flames were taken from the fire zone on special trains. Regular traffic on the Great Northern was suspended.

A number of logging camps and homesteads have been destroyed.

BOICEVILLE REUNION TO BE HELD LABOR DAY

The Boiceville reunion will be held as usual in the Morrison Lambert grove at Boiceville on Labor Day. Of course, the weather permitting. This reunion is made up of the old and present residents of the Ashokan Reservoir and vicinity, and all that is required of anyone that comes is a pleasant smile and a full lunch basket, and it is always well to have a little on hand for those without wife at home to put it up. These unfortunates always share in the baskets of those who have plenty. Come. Everybody welcome.

Made "Only a Rough Estimate".

White Plains, N. Y., Aug. 22 (AP)—Patrick Christopher, real estate dealer whose so-called appraisal of a proposed courthouse site formed the basis in part for investigation of purchase of the site ordered by Governor Roosevelt, testified today that he made no appraisal, but only a rough estimate. The estimate or appraisal had set the value of the site at $551,000 and the county purchased the land for $348,000. Christopher said he reached the figure he used merely by adding 25 per cent to the assessment, a casual calculation which could by no means be called an appraisal.

Would-be Japanese Stowaway.

Kasumigaura, Japan, Aug. 22 (AP).—Police announced they had arrested a weak-minded Tokyo lad of 18 named Mitsukichi Harakawa, who had become infected with the prevailing Zeppelin enthusiasm in Japan and stolen 300 yen (about $138) from his father in the determination to see the world from the air. Mitsukichi slipped away from his home and got out to Kasumigaura air field, where the police had no difficulty in spotting him and returned him to his father's custody.

"Has a Way About Him".

New York Aug. 22 (AP).—The Prince of Wales, take it from a Beaumont, Texas, Boy Scout, is not such a snappy dresser as most Americans seem to think. "He had on a pair of sloppy shorts when he visited the jamboree," said Billy Bass, one of thirteen of the Beaumont Troop who returned from the world Scout jamboree in England. "But," he added, "he had such a way about him you overlooked his pants."

Fischer Again on Charity Board

Mayor E. J. Dempsey has filed with City Clerk George W. Moore the appointment of Carl G. Fischer of East Strand as a member of the board of charity commissioners to fill the vacancy caused the death of J. Leonard Salzmann. The appointment of Mr. Fischer will be submitted at the next meeting of the common council for approval.

Mr. Fischer is a former member of the charity board, and is well acquainted with the duties of the office. For many years he was proprietor of Fischer's Hotel on the Strand, which he sold some time ago, and since then has not been active in the business world.

Zeppelin Held by Adverse Winds

Kasumigaura Airfield, Japan, Aug. 22 (AP).—The departure of the dirigible Zeppelin for her trans-Pacific flight to America was postponed again shortly before midnight tonight because of unfavorable winds. It was announced the dirigible might leave early in the morning.

Sustains Slight Damage.

The damage, sustained yesterday when the Zeppelin dipped as it was leaving the hangar, crushing supports of the rear gondola, was found to be entirely superficial and easily repaired. The envelope of the gondola and the basket underneath both were damaged slightly but were readily mended.

The engineers in charge of the work expected to finish the last of their work, connecting of the gas lines to the engine in the damaged section, shortly after sunset.

Grand Master of Odd Fellows.

Ithaca, N. Y., Aug. 22 (AP).—G. Edward Coon of Rochester was installed as grand master of the Independent Order of Odd Fellows of the state of New York at the closing session of the grand lodge's 106th session here today. He succeeds Arthur G. Adams of Ithaca. Other officers installed included Herman N. Harcourt, Poughkeepsie, grand warden; Clayton W. Boyce, New York, grand secretary; and John F. Bullenkamp Brooklyn grand treasurer.

Arrested for Attack on Eaton.

London, Aug. 22—(AP).—Roland Bateman, for whom Scotland Yard has been searching in connection with a brutal attact on Philip Eaton, American school teacher, on August 13, has been found in the west end quarter of London and is under arrest. August 16 James Moore, alleged companion of Bateman, was remanded in custody on charges of stealing and receiving clothing which belonged to Eaton.

Helen Wills Irresistible.

Forest Hills, N. Y., Aug. 22 (AP).—Helen Wills never played tennis more irresistibly nor more ruthlessly than in the present national women's championship tournament at the West Side Stadium. In three of the quickest matches on record, the champion of the world has overwhelmed two players by scores of 6-0, 6-0, and accounted for a third at 6-1, 6-0.

Find Body of W. Charles Lipe.

Alexandria Bay, N. Y., Aug. 22 (AP).—The body of W. Charles Lipe, Syracuse millionaire manufacturer, who with his wife, Mrs. Eloise Hoyt Lipe, and their speedboat pilot, Ford Dodge of Clayton, was drowned in a river collision last Friday night, was recovered from the St. Lawrence river today. The body was found about 100 yards from the scene of the accident.

Stowaway Tries to Escape.

Hamburg, Germany, Aug. 22 (AP).—Albert Buschke, stowaway aboard the Graf Zeppelin on her last flight to Lakehurst, was sent home today for trial before the juvenile court. He attempted to escape from the steamer Thuringia on arriving here, and jumped overboard into the harbor, but was soon picked up.

Fatal Automobile Accident.

St. Catharines, Ont., Aug. 22 (AP).—One man is dead, three were injured and the driver was held by police after their automobile crashed into a telegraph pole near Homer early today. The transformer on the pole fell into the car, adding to the injuries of the occupants.

Yellow River Floods Land.

Peiping, Aug. (AP).—As a result of a 100-foot break in the dyke on the Hwang Ho or Yellow River in West Shantung, through which a torrent of water is pouring, an area fifty miles long and five to ten miles wide has been inundated.

Turks Study American Aviation.

Curtiss Field, Valley Stream, N. Y., Aug. 22 (AP).—Three Turkish government officials left today in a tri-motored plane for a tour of the country to study American aviation methods. Their first stop was to be at Buffalo.

Just Another Chicago Bomb

Chicago, Aug. 22—(AP)—The front of the Warshawsky and Company automobile supply store at 19th and State street was wrecked by a bomb early today. A watchman was injured by flying glass.

Brings Old Commander Home.

Cherbourg, France, Aug. 22 (AP).—The American cruiser Raleigh put in here today to take home the body of her old commander, Vice Admiral Albert Parker Niblack, who died this week at Monaco.

Several Police Court Cases

Melvin Wolf, Arrested on Reckless Driving Charge, Discharged—McCullough Case Adjourned—Other Cases.

At the close of the evidence presented by Arthur Fiorelli to substantiate his charge of reckless driving preferred against Melvin Wolf of this city, Judge Schofield granted the motion of Attorney William H. Grogan, who appeared for Wolf, and dismissed the case.

Wolf was arrested by Fiorelli on July 17, following a collision between their cars at Henry street and Clinton avenue. One of the cars crashed into the parked automobile of Harry DuBois Frey, damaging it and injurying Mr. Frey's father, William A. Frey. Attorney Walter H. Miller appeared for Fiorelli at the hearing.

Charles McCullough of East Kingston, arrested on a warrant sworn out by Mrs. Helen Hinkley of 122 Hasbrouck avenue, who charged him with striking her in the face, had his hearing adjourned until later.

Mario Modica, R. F. D., Kingston, arrested charged with passing a red light at Pearl street and Clinton avenue, was given a suspended sentence.

James Murray, who said he lived in Brooklyn, was given a suspended sentence when arraigned charged with panhandling on Fair street.

Joseph Browne of Marbletown, arrested charged with driving to the left of the traffic standard at Washington avenue and North Front street, received a suspended sentence.

James Elliott Walmsky of Farmville, Va., arrested charged with passing the red light at the Rondout Creek Bridge, gave bail for his appearance on August 31.

BROKEN WIND SHIELD INJURES THREE PERSONS.

Ulster Park, Aug. 22.—Helen R. Churchwell, nine years old, daughter of Mr. and Mrs. Melvin Churchwell, sustained a severe cut in her forehead Wednesday afternoon from the glass of a broken windshield caused by a collision near Stone Ridge while the Churchwell family was returning from the Ellenville Fair. At the Benedictine Hospital the injury was dressed and sewed up by Dr. Mark O'Meara and though painful, no serious results are apprehended. Mr. Churchwell received a cut on his head and his small son, Horace, was bruised and slightly cut. The car was disabled and taken to Mott's garage at Esopus for repairs.

BOY OF SEVEN NEAR DEATH, SWITCH HOLDS FINGERS

Chatham, Ont., Aug. 22 (AP).—Donald McGregor, seven years old, stared at approaching death today as a locomotive rushed down the rails which pinioned him.

The boy had been sitting on the switch rail watching section men ballast the road. A tower operator closed the switch for the approaching engine and Donald's fingers were caught in a vise-like grip.

His cry of pain brought section men to his aid. Some endeavored to pry the rails apart with crowbars but failed. Others ran toward the oncoming engine and waved to the engineer, who was able to bring the locomotive to a stop a short distance from the trapped youngster.

Maniac Suspect Kills Policeman.

Montgomery, Ala., Aug. 22 (AP).—A policeman was shot to death and another seriously wounded in what apparently was an attack by a maniac here early today. The attack occurred as the officers emerged from their automobile. Wright was killed instantly by a bullet through his chest after he had been felled by a blow on the head from a heavy iron instrument. Smith was stunned by two blows over the head from the instrument. Both were plain clothes men. Joseph Dodson Choate, 26, was arrested at the scene of the attack after calmly informing officers that he "did it all." He had Wright's pistol in his pocket when he was taken into custody.

Police Chief Shoots Two.

West Frankfort, Ill., Aug. 20 (AP).—Earl Kreicer and Albert McDonald were shot to death by Police Chief Leroy Fisk last night after the chief and Patrolman George Nipper stopped their motor car in the downtown district to search it for liquor. Kreicer is said to have fired first at the officers. Fish fired four shots from a sawed-off shotgun, hitting both in the head and killing them instantly. Fish was placed under technical arrest and held in jail at Benton.

Charged With Murder.

London, Aug. 22 (AP).—Roland Bateman, a young Englishman, today was formally charged with attempting to murder Philip Eaton, an American schoolmaster, on the night of August 12. After a week's search Scotland Yard detectives arrested Bateman today as he was walking in Tottenham Court road. Bateman, who also will be charged with assaulting Eaton and robbing him of about $200, will appear at Marlborough police court tomorrow.

Want Citizenship Restored.

Hutchinson, Kansas, Aug. 22 (AP).—Restoration of citizenship for Mennonites, who were classed as conscientious objectors during the World War, is to be requested of the government, leaders attending the general conference of the Mennonite Church of North America, in session here, said today.

Crash at Foxhall and Flatbush Aves.

A Dodge sedan driven by Frederick Steinmiller of Chambers street, Kingston, and a Hudson coach driven by Charles Cafaldo of Glasco, came together at the intersection of Foxhall and Flatbush avenues shortly after 8 o'clock last night with a crash that could be heard for blocks.

The Cafaldo car containing besides the driver, Lizzie, Fannie and Antoinette Battaglino, was coming north on Foxhall avenue and struck the Steinmiller car as the latter was turning from Foxhall avenue into Flatbush avenue, throwing it onto its side and completely shearing off the running board and fenders and smashing in the side. The front bumper was torn from the Cafaldo car and carried some distance, the entire front was smashed in, one window broken and the stearing wheel broken into splinters.

Occupants of the two cars were bruised and cut, the most severely injured being Lizzie Battaglino. The injured were taken to the Kingston Hospital in an ambulance, but after treatment were able to go to their homes. They were fortunate to escape without more serious injuries.

CAPTAIN TURNER TO MAKE RETURN TRIP TOMORROW

Roosevelt Field, Aug. 22 (AP).—Captain Roscoe Turner and his three passengers prepared today for a return trip tomorrow to the Pacific coast in their flight to demonstrate the feasibility of one-day transcontinental air passenger service.

They arrived here last night from Glendale, Cal., having made the cross country flight in 19 hours and 53 minutes, with three refueling stops.

Captain Turner planned to make as much of the flight in daylight as possible, but on his arrival last night, he said. "It was sure a tough job flying over the Rocky Mountains this morning before daylight and over the Appalachians after dark. That's enough work for any man in one day."

DYNAMITE USED IN NEW ORLEANS STRIKE

New Orleans, Aug. 22 (AP).—Explosion of dynamite under the wheels of a street car here last night and blew an eighteen-inch piece of steel rail through the floor and roof of the car, injuring one passenger and stunning ten others.

The explosion was characterized by police as the most serious since the beginning of the carmens' strike nearly two months ago.

The detonation, heard for several miles, caused a near panic among motorists and pedestrians in the vicinity.

Police were forced to use tear gas bombs to disperse crowds at the scene of the blast.

SAY RUSSIANS ARE ATTEMPTING A WORLD WIDE REVOLUTION

Washington, Aug. 22 (AP).—Soviet authorities are accused of activities to "bring about a world wide revolution" in the latest Chinese note dealing with the Manchurian controversy.

The Nanking officials found evidence, they said, that the Russians were promoting "secret plans to nullify China's unification, to overthrow the Chinese government, to compare secret forces for destroying the Chinese Eastern Railway, and to carry out a policy of wholesale assassinations and thereby bring about a world wide revolution."

30,000 RUSSIAN TROOPS ON MANCHURIAN BORDER

Nanking, Aug. 22 (AP).—Based on reports from Harbin, Chinese Nationalist Government authorities estimate 30,000 Russian troops are stationed along the Manchurian borders, all of them under the command of General Budenny, famous Boolshevik cavalry leader.

Pajama Dance Was a Frost.

Little Rock, Ark., Aug. 22 (AP).—Pajama inspectors became traffic cops as 2,500 persons turned out last night for a widely advertised "pajama dance" and only 25 couples showed up in pajamas. The inspectors were deputy sheriffs dispatched to a local Casino under terms of an injunction granted promotors of the dance. The injunction forbade the sheriff from interfering with the event and was granted yesterday after the sheriff, at the request of women's clubs, announced he would stop the dance.

Ideal weather, a large crowd, exciting horse racing and a Wild West rodeo staged by California Frank's clever troupe of rough riding, lassoing and shooting experts, not to mention the Midway and the exhibits, marked the second day of the Ulster County Fair at Ellenville on Wednesday. The big fair continues for the remainder of the week, including Saturday, with a fireworks display and the rodeo as the principal evening attractions. Those intending to motor out to the fair from Kingston this week will find the road in excellent shape with the exception of several hundred feet near Napanoch.

Horses Draw Crowd.

The weather was crisp and cool during the morning but at noon it grew warm, but not too warm, and by the time the first light harness race was called the grand stand was filled and a large crowd had gathered along the fence along the half mile track. There is something exhilarating that stirs one's blood in an exciting horse race, and the races that were staged Wednesday afternoon at the fair afforded a full measure of pleasure to those who had gathered to see the horses trot.

Dixie Prince Romped Home.

The first on the racing card was the 2:30 pace, for which there were ten horses entered. This made it necessary to send the horses away from the barrier in two tiers, and several starts were attempted before Starter Lloyd Hallenbeck shouted "Go" as he dropped the flag that sent the racing animals on their way around the half-mile dirt track.

Commissioner J. David Schenck, of the board of public works, had his horse, Directum I, Jr., entered in this race but the horse got away to a rather poor start and finished trailing the field. Mr. Schenck withdrew his horse at the close of the first heat.

The races were three-heat affairs, and Dixie Prince, a handsome brown animal, entered by Al Fleisch of Spring Valley, jumped into the lead at the bell and romped in several lengths ahead of the field. With Dixie Prince showing his class the race was really between Aileen Gentry, a chestnut mare, entered by Leander Lee of Newburgh, and Stella Napoleon, a brown mare, entered by R. A. McCartney of Ellenville.

In drawing for position the Ellenville horse had drawn the pole and in the first heat she finished in second place with the Newburgh horse close at her heels.

In the second and third heats, however, Aileen Gentry showed her heels to Stella Napoleon, in as pretty a finish as has been seen in some time on the track. The time for the three heats was 2:15, 2:16½ and 2:18, with Dixie Prince winning first money; Aileen Gentry, second money, and Stella Napoleon, third money.

The Summary.

The summary of the race follows:

Dixie Prince	1	1	1
Aileen Gentry	3	2	2
Stella Napoleon	2	3	3
Kitty Brusiloff	4	4	7
Fruity McGregor	9	8	9
Marching Peter	8	[illegible]	4
Evelina	[illegible]	[illegible]	6
Directum I, Jr.	1	[illegible]	[illegible]
Addie Temple	5	7	8
Shawbay I	6	9	5

The 2:30 Trot.

It took an extra heat to decide the winner in the 2:30 trot, in which five horses were entered. The race was won by Blessful, a brown mare, entered and driven by William A. Oliver of Closter, N. J., who is secretary of the Orangeburg Fair, and whose hobby is horse racing. After finishing third in the first heat, Blessful came back and won the second heat but dropped to fourth place in the third heat. In the fourth and final heat she romped in ahead, winning by a nose from Directum Scott, entered by John Stimpson of Hartford, Conn.

In this race the second heat was the most hair-raising, with three horses bunched at the wire and Blessful winning by a nose with Emma Arlon, a brown mare, entered by J. T. Keegan of Orangeburg, second, and Shaw Brook, a brown horse, entered by J. S. Murray of Chester, in third place. So close was the finish that it was difficult for those in the grand stand to catch the winner as he passed under the finish wire.

The third heat of this race was won by Directum Scott with Shaw Brook in second place, but when the judges called out the horses for the fourth heat, Shaw Brook was drawn, leaving the fight for first money to be fought out between Blessful and Directum Scott.

The Summary.

The summary follows:

Blessful	3	1	4	1
Directum Scott	4	4	1	2
Shaw Brook	1	3	2	drawn

Flashes of Life Sketched in Brief

(By The Associated Press.)

Hicksville, N. Y.—Mrs. Lindbergh is progressing in aviation. In four hours of instruction she often guided a plane by herself and made some landings. Her husband was up with her in a dual control craft, which landed eight times.

New York—Lieutenant Colonel Nathan Jay Boots, managing director of Roosevelt Field, naturally believes in using an airplane for transportation. He flew to Chicago for his wedding there today to Miss Louise Wardwell. With him were eight of the wedding party.

New York—Police Commissioner Whalen hopes to be in touch with the activities of crooks when he is motoring. A radio receiving set has been installed in his limousine.

Washington—S. T. Davis of Lynchburg, Va., has decided to pet no more lions. He climbed a fence in National Zoological Park and was lacerated by one paw. Another tore his trousers. He drove away declining medical aid. The lion was one of two presented to Mr. and Mrs. Calvin Coolidge by citizens of Johannesburg and in turn given to the Zoo.

Peterboro, Ont.—From the Trent river district comes a story of a tame bass, one that Herbert Rose got acquainted with in his bathhouse last year; it waited for him this year. Jumps out of the water for worms which he dangles, but takes food from nobody else.

London—Says the will of Colonel Claude Lowther, M. P.: "I wish my darling dog, Miss Mischief, to be taken immediately after my death to my old friend, Frederick Charles Bishop, who shall receive £4 monthly while she is under his care."

New York—Out in the great open spaces, Fred Stone has written his daughter, Dorothy, he is playing polo daily, doing road work on a bicycle and dancing two hours nightly. But he is not flying.

Birmingham, Ala.—Leroy A. Skinner, who has been divorced six times, must make Mrs. No. 7 and No. 6 coincide, if he would be a husband again. By court order he is forbidden to marry again unless he reweds his last wife.

Havana—It is dangerous to trifle with the government lottery. Benito Carrasco Garcia, 22, has been sentenced to life imprisonment for altering numbers on a ticket.

SAUGERTIES

Saugerties, Aug. 22.—The annual clambake of the Esopus Bathing Club was held up the creek at their club house last Sunday. Lyman Hallenbeck prepared and served the bake which was a delicious one for the club members and their wives. The music was furnished by the Merry Melody orchestra.

Max Orgel of the Bronx, New York city, was arrested by Captain Richter and was fined $10. George Goodrow of Newark, N. J., and William O'Neil of Partition street were also arrested on Sunday and fined five dollars by Police Justice Bennett.

DUTCH FAIR AT ROSENDALE WAS A GREAT SUCCESS

Rosendale, Aug. 22—The "Dutch Fair" and supper held on August 16 and 17 for the benefit of All Saints Episcopal Church, was opened at 2:30 o'clock with Mrs. W. J. Gratton, the president, and was a great success socially and financially. The hall was decorated by Mrs. Henry Mollenhauer, in pink and green, also the booths erected by the Rev. W. J. Gratton, which presented an artistic effect, with its many attractive bargains presented by the ladies and their friends, also from the Kingston merchants. Flowers and potted plants, arranged in good taste, were much admired. Mrs. Dorothy Juengst became the possessor of the handsome silver bread knife, presented by Mrs Beauvais. A fine oil painting of flowers, went to Principal Emerick, of the school at Cottekill. The orange tree, with its mysterious gifts, was in charge of the Misses Styles and Muriel Gratton, who wore quaint Dutch gowns and caps. The supper was pronounced faultless, under the supervision of Mrs. Leroy Styles, as chairman, assisted by Mrs. Beauvais and the ladies of the Guild and much enjoyed by the large crowd present. The Rev. W. J. Gratton and Mrs. Gratton wish to thank all who cooperated in any way towards the successful termination of this delightful affair.

Paul Mayo, third secretary of the United States embassy at Brussels, has been appointed associate professor of social science at the University of Denver.

AN OPERA SINGER ON WOODSTOCK PROGRAM.

(By F. G. Clough.)

At the Tuesday night concert given at the Woodstock Playhouse, on the grounds of the Country Club, a large audience was present to honor the guest singer, Thalia Sabanieva, coloratura of the Metropolitan Opera House.

The program opened with a stringed trio of two violins and viola, played by Pierre Henrotte, Gladys Billings and Gerald Kunz, respectively. These musicians played a trio in C major from Beethoven.

Mlle. Sabanieva then appeared on the stage and captivated her audience on two counts—first by her charming personality, and then by her delightful voice; she sang from Rimsky and Bruneau. Following an intermission Mlle. Sabanieva appeared again and sang the Polonaise from "Mignon", by Thomas. This number was applauded for an encore, which the singer graciously gave, a request number from Pierre Henrotte, who announced that it was "Madame Butterfly", which won the singer her fame during her debut at the Metropolitan seven years ago, and asked her to sing an aria from that opera.

The winning presence, the charming appearance and the ease with which this singer performed, were sufficient to win her the immediate applause of the large audience of music lovers gathered for the concert. Her numbers were consistently delightful; her singing was that of an artist of the first rank, and the audience was not slow to ackuowledge the treat offered them by the Woodstock ensemble's weekly concert.

There were many people from Kingston and nearby towns present, including celebrities from the Woodstock colony. Among the celebrities of the day in Woodstock, there was present in the audience, Will Durant, popular author, who was a guest of J. P. McEvoy, playwright. It was announced that for the August 27th concert, Jan Williams, first clarinet of the N. Y. Symphony, would be the guest performer.

MOMBACCUS CENTER

Mombaccus Center Aug. 22—Ruban and sons have started to rebuild their house which was burned last fall. Mr. Greene of Kerhonkson has the contract.

Asa Winkoop of Tabasco called on J. M. Herring on Tuesday.

Mombaccus was visited with a severe electric shower on Saturday afternoon, August 10. A bolt struck the barn of Eli Quick which was burned with all its contents. Fortunately it was early and his 6 cows and team was still in the pasture field. His year's work gone and small insurance.

William Embry and family of Tabasco called on Mr. and Mrs. J. M. Herring on Saturday afternoon.

Mr. and Mrs. Elting Churchwell and daughter Grace made a business trip to Kerhonkson on Monday.

Those who called on Mr. and Mrs. J. M. Herring on Sunday were Walter Churchwell and Asa Winkoop of Tabasco.

An improved demand for copper and lead has been manifest in the past week, lead inquiries picking up especially in the last day or two with the improvement in the price abroad, Engineering and Mining Journal reports.

HOUSEHOLD REFRIGERATORS SAFE, HEALTH OFFICIALS SAY

Washington, Aug. 22 (AP).—Three governmental agencies today gave assurances of the general safety of present-day household refrigerating methods.

A joint statement by the Public Health Service, the Bureau of Standards and the Bureau of Mines said that its purpose was to "relieve any undue anxiety in the mind of those possessing household refrigerating systems."

"Several deaths," the statement asserted, "which have occurred recently in Chicago have been attributed to poisoning by methyl chloride which leaked from refrigerating systems. These have received wide publicity, even among the users of refrigerating equipment entirely unlike that to which the fatalities have been attributed. Serious accidents from household refrigerating systems have been small in comparison to the number in use," the statement said, and added that improvements might be expected which would reduce materially the small hazard which does exist.

INDUSTRIALS WILL PLAY IN POUGHKEEPSIE.

Going at top speed on the road of victory and overcoming all obstacles placed in their path, the Kingston Industrials will endeavor to add another win to their previous four straight victories, Friday night, when the locals go to Poughkeepsie to take on the Silver and Gold Club of that city.

"Waco" Peters will probably be on the mound for the Kingston team while Brennan is expected to do the hurling for the Bridge City aggregation.

EARTHQUAKES IN AMERICA.

The only serious earthquake in the eastern part of this country was the one in Charleston, S. C., in 1886, and those old enough to remember it may find some difficulty in realizing that forty-three years have passed since then. The great shock of 1886 has been recalled by the recent earth tremor that shook walls and rattled dishes in New York and Massachusetts. Supposedly such an event had never before occurred in that part of the country, but it must be remembered that the white man's records go back only three centuries and there is no knowing what may have happened previously in a land of Indians without written history. Imaginative minds have pictured the collapse of New York's skyscrapers in consequence of a great earthquake and the almost inconceivable ruin and tragedy to follow, but New Yorkers have remained content with the assurances of their engineers that the island and mainland on which the great city stands have a foundation of impregnable rock set deep below the sand of the ocean.

There is warning, however, in the recent event, and, though damaging earthquakes may be less likely in that region than almost anywhere, it might be hasty to assume that the mighty metropolis of the New World is altogether immune. One never can tell, for experience shows that the supposedly most safe may run into deadly peril just around the corner. All we know with certainty is that within the memory of the white man the United States, with the exception of California and Charleston, has been extremely fortunate, as compared, for example, with Japan, which has had thousands of shocks within a few years, many of them vastly destructive.

SCIENCE OF GRAPHOLOGY.

In this country the handwriting expert is called to testify, but his judgment may be regarded as inconclusive owing to the manifest difficulties of identification. This is not only because forgeries are often the work of intelligent and highly skilled men, but because a signature, even when genuine, may be very hard to verify on account of lack of manuscripts for comparison, changes in handwriting due to illness or old age, and other difficulties in the form of faint pencil scribblings, faded or spreading ink, and so forth. But a recent article in a French magazine indicates that in Europe graphology has the reputation of a genuine science.

It seems that in Germany, Holland and Switzerland as well as in France there are advanced graphology societies and that in Rumania the Ecole de Chartes gives a two-year course, teaching officially methods of handwriting study. According to the French writer, the graphologist must not only employ the most modern optical instruments but must be a student of the temperaments which the various types of handwriting represent. He must have expert knowledge of the peculiarities of normal and of pathological chirography, their causes and effects. An interesting instance is given of an expert's judgment and the reasons supporting it in the case of anonymous letters. The professor pursued by them thought they came from a dismissed and disgruntled maid, but the graphology expert was able to show that they were written by "a cultivated young man, sly, taciturn, envious, proud and susceptible."

FACTS AND LAW.

The President's law enforcement commission has decided upon its plan of action. It has selected 11 fields of special study and appointed special committees from its own membership to investigate each field. There are committees on causes of crime, statistics of crime and criminal justice, police, prosecution, courts, penal institutions, juvenile delinquency, criminal justice and the foreign born, lawlessness by government enforcing officers, cost of crime, and prohibition.

"These committees," the announcement states, "will keep in close touch with the experts and consultants selected by the commission for the gathering of facts in the different departments of the commission's work."

This arrangement should secure thorough and directed investigation. There will be no vague survey of the general field, but a detailed study of specific fields. The results lie far in the future, but there is promise that they will be exceedingly valuable to the nation.

Young Wilber Huston, of Edison test fame, besides being scientific-minded, is by way of being a moral philosopher. He gave an excellent, if ungrammatical, answer to the question whether a lie is ever permissible. It is permissible, he says, "in case of serious trouble, pain and grief, and you do not benefit yourself in any way." Lord Bacon, the great philosopher, thought men lied mainly because of "a perverse pleasure in the lie itself." This may be true of artistic liars. The artist in any line likes his work, and does his best to turn out masterpieces for their own sake. But the Huston boy seems to get the gist of the thing a little better. Most lies are probably told either from fear or desire for gain. They show weakness and selfishness. They are meant in some way for personal benefit. Such lies are wrong. This young scientist, a theologian's son, thinks that an unselfish lie, a lie that will do the liar no good and may benefit the other fellow more than the truth would, is permissible. Tragic cases of necessity will readily come to mind. Milder cases are the "white lies" or "lies of courtesy" told by most persons as a matter of course. Graceful and kindly social intercourse is based, more than we like to admit, on unselfish lies.

WHAT EXERCISE CAN DO.

One of the little observations made about the use of insulin, on patients who have come into hospitals to find out just how much insulin they need to keep them safe, that is the urine free from sugar, is that after they leave the hospital the dosage of insulin could be reduced.

It was found that exercise actually increased the amount of insulin manufactured within them, so that they did not need as much insulin injected into them.

Further, when the muscle works hard as much as twenty-five times more blood rushes to it as when it is at rest.

This means then that work, work of the muscles, is really not only safe for the diabetic but actually helps him to produce more insulin of his own.

This knowledge is worth much to the diabetic who is afraid that he will weaken himself and use up too much sugar in his system, and have more lost by way of the urine.

He will now go about doing the ordinary things of life which will not only give strength of body, but will give peace of mind.

However I am not thinking of the diabetic at present, but about the ordinary everyday healthy individual, that if he is willing to work, to exercise, he will flood his muscles with blood, giving them strength, but will also manufacture more insulin for use in the body, which means richer blood.

This does not mean hours of exercise or work daily but just a matter of five to ten minutes with the blood flushing through in such tremendously increased amounts, that you get the benefit of it the other twenty three hours and fifty minutes of the day. This daily exercise educates the small arteries supplying the muscle to remain a little wider open all the time, so that even when you are at rest you get the benefit of this increased supply of blood.

If to this ten minutes you add a walk everyday, you may rest assured that heart, lungs, kidneys, pancreas, intestines, and skin are getting their daily exercise just as are the muscles with which you do the exercise.

Death Treasure

—by R. A. J. WALLING—

EYEWITNESS! Seven men heard the shot, saw Roger Pell fall dead—not one could tell the police who fired it. A weird drama had been enacted before their eyes—Pell turning on his chief enemy, Parson Marling threatening to produce a "ghost" for the trembling pair. Pell stooped to unlock the library door a pistol exploded, Pell dropped. Inspector Wayne refuses to believe the story but seven eyewitnesses vouch. He searches all, finds no pistol. No one has left the room, a shot through a window is ruled out. An interruption—Professor Laxton, who failed to arrive at the intended séance over buried treasure, is found in the corridor unconscious. More questioning—a startling theory is suggested—was Pell shot through the keyhole?

Chapter 10

THE KEYHOLE MURDER

"SHOT through the keyhole—" Somerfield's words set up a rush of theory, which broke the oppressive spell. It loosed all tongues.

Wayne turned to stare at the door, in its archway, and at the huge lock, and at the large worn aperture in it.

"Mr. Fotherbury," said Wayne, "is that door ever locked?"

"Always at night."

"And the key usually kept on the outside?"

"Always."

"Good for you, Somerfield!" he called out.

We heard a ring of metal on stone, and Wayne came with a large iron key in his hand. He examined the keyhole by the light of his torch.

"Mr. Fotherbury," said he, "you assure me that there has been no trick with this key? It's not a plant?"

"Of course not, Mr. Wayne. You wouldn't ask me that if you weren't suffering a little from excitement. It looks as if—but perhaps you'd rather we didn't speculate?"

"It alters things," said Wayne.

"Don't you think," Mr. Fotherbury asked, "you could at least put us on parole? I suppose we can all give our word of honor to stay within call of Mr. Wayne until something is decided?"

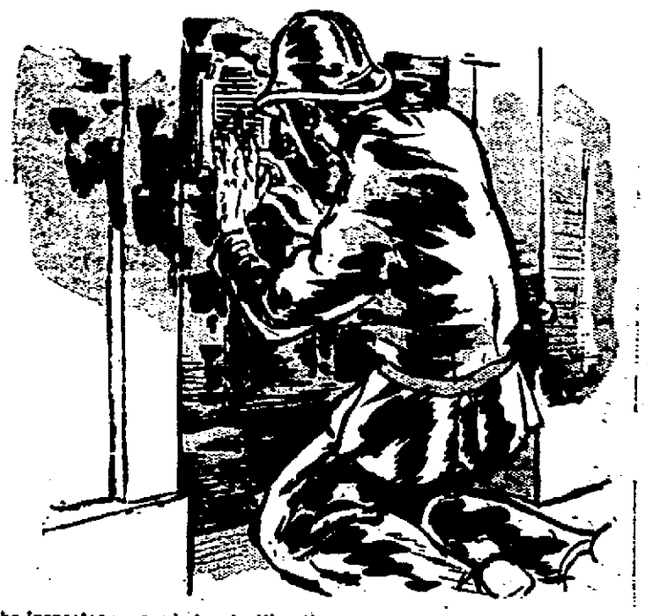
He sent a look of inquiry round.

"Very well," said Wayne. "Until the chief comes, the body must stay there. The door can be locked and I'll take the key."

By this time we were all standing round him except Marling, who had sat immobile in his chair by the hearth.

"Come along, Marling," said Mr. Fotherbury.

Marling rose and walked slowly towards us, with his cassock swinging. He was at the tail of the little procession that filed past Wayne and went along the corridor.



The inspector grasped at a startling theory—murder through the keyhole!

"Before I examine it, should you say that the key ought to be in the lock now?"

"Yes, certainly—if nobody has removed it."

"It is not in the lock," Wayne exclaimed. "Every man in the room must have known it—the door has been swung open several times."

Wayne walked to the door and pulled it open. There was no key.

"You gentlemen will please remain in your seats," said he.

He went outside and closed the door. We could imagine him stooping to peep through the keyhole. Immediately he was inside again, looking down on the body of Pell.

"Mr. Granofen," he called to me, "will you come and show me exactly what Pell did?"

As I went to him, Wayne fastened both bolts.

"Pell was here," said I, taking the spot where he had stood. "He waited with his arm up, looking at his watch like this. He said, 'Now!' and he started immediately for the door. He shot back to the top bolt, so, and he was stooping to the bottom bolt, like this, and before he reached it, there was a terrific bang and he just fell in a heap—there."

"He was shot in the forehead," said Wayne, looking at him. "Did he face the door when he stooped?"

"I can't say. He was in rapid motion all the time. You see, the whole thing was done in an instant."

Wayne stood contemplating us, his brow puckered, his eyes full of doubt.

"Did anybody see the key in the door before this happened?"

Nobody had noticed whether it was there or not.

"I should make a suggestion," said Somerfield.

"Well?"

"That if by any chance Pell's ghost shot Pell, he probably didn't go off with a great key like that in the pocket of his shroud. You've no doubt observed that the vestibule is badly lit."

"Ah!" Wayne cried, unbolted the door, took a torch from his pocket and flickered it along the flags of the corridor.

The suspense was too much for Seabroke. He muttered something about it's being silly, and marched across the room to look over Wayne's shoulder.

"Curious how he got in there," Royle observed.

"Please pass along without going in," came Wayne's voice behind us. And so we reached the hall to encounter Bentley and the constable one on either side of Laxton, coming across it. We stopped and spread out. Wayne pushed to the front.

Laxton seemed a little groggy, but not much hurt. He gave me no sign of recognition.

"Which of you gentlemen is Mr. Fotherbury?" he asked.

Mr. Fotherbury stepped forward.

"Most extraordinary introduction," said Laxton. "I'm afraid I've not been able to keep my appointment very punctually."

"Appointment?" Mr. Fotherbury inquired with his eyebrows up.

"Yes, I said I'd be with you at three o'clock."

"Good gracious!" cried the host. "You can't be Professor Laxton?"

"Oh, yes, I can," said Laxton.

"And what on earth—"

"Excuse me, Mr. Fotherbury," Wayne put his hand up. "If this gentleman will come with me, I'll speak to him first."

* * * *

For my purpose, which is to tell the facts about Roger Pell, I need not dally with the public proceedings of Wayne and his superiors.

Wayne was a capital fellow—the best type of the trained police officer, and in England that is saying a lot. But Wayne naturally concerned himself only to find an explanation of the murder and when he had found it, since the murderer could obviously not be caught in Blackwater, he handed the whole thing over to Scotland Yard.

And Scotland Yard began its hunt for the mysterious person of whom we came to speak as "Pell's ghost."

Wayne, puzzled to death and bulging with those suspicions of his, as soon as the theory of the shot through the keyhole was suggested, conceived the idea that Laxton might be the ghost!

Professor Laxton has a puzzling explanation to offer—in tomorrow's chapter.

Rotarians Hear Helpful Talk

District Governor Harvey Eldred of Troy Pays Official Visit to Kingston Rotary Club at the Governor Clinton Hotel.

The regular Wednesday meeting of the Rotary Club was held in the evening this week, in the dining room of the Governor Clinton, to accommodate the new District Governor, Harvey Eldred of Troy. It was the occasion of his official visit to the club.

Dinner was served at 6:30, Harry Greenhelder discoursing sweet music on the piano during the luncheon hour and Chester Dumond Winter Park leading the assembled Rotarians in occasional bursts of song if that is the way one felt about it.

Following the dinner President Clinton Hart introduced the following guests of the evening: Fred Kittel of Galveston, Texas; Walter Hague of Poughkeepsie; Sam Mack of York, Pa. and his guest, John R. Mertz of Philadelphia; John Spencer of Hornell, N. Y. and Joseph Gorman of Kingston.

District Governor Eldred was then presented as "the man who for twelve years has had a one hundred per cent record as a Rotarian."

Mr. Eldred voiced his appreciation of the courtesy shown in holding the meeting in the evening as a favor to him and then made extended reference to the recent international convention of Rotary held in Dallas, Texas. He paid his deep respects to the "man from Texas," (Mr. Hartel), and said that District 29 owes a debt of gratitude to Dallas, where the 14,000 odd delegates were welcomed with an enthusiasm and liberality that was the epitome of southern hospitality. He referred to the coming meeting in Chicago and hoped that many from this district might be able to attend that gathering and obtain the broadened vision and helpful influence that came from such contacts.

The speaker admitted that he was a "nut" on Rotary. Said he wasn't old enough to play golf—his daughter disagrees with him as to this being the real reason for his not taking up that game—but the work of Rotary was a delight, his hobby.

He started his rounds of official visits on July 15 and Kingston was the 40th Club he has visited, proof that he has been kept pretty busy. Saying that the spirit of Rotary was friendliness, he said that he wished that members would visit other clubs whenever possible.

Mr. Eldred reverted to the international gathering and speaking of the overseas delegates said that he found that those across the water were taking Rotary more seriously than those in this country. He spoke of the proposition that had been brought up at Dallas to change the motto, "He profits most who serves best," because of the great difficulty found in expressing its meaning in other languages. There was a hearty laugh when he gave the result of one attempt—"He profits most who gets there first." The point was emphasized by the statement that today one would need to be conversant with 26 different languages in order to talk with all Rotarians.

A good portion of Mr. Eldred's talk was devoted to the "aims and object plan." Without attempting to follow closely these points were noted:

Rotary is built on the idea of classification and the Kingston Club has followed this most commendably. They should stand by it and not make the mistake of trying to "stretch" the classification because of a desire to secure some good fellow as a member. The man that doesn't attend meetings has no right to hold on to his classification (the Kingston Club had an average attendance last year of 82 per cent).

The reputation of the club depends upon how the fellowship committee functions—not only in welcoming guests but in making new members feel at home and teaching them the ways of Rotary.

A very important function is that of the program committee. Meetings must be made interesting, so that when a man gives up his work and leaves his office to attend he will receive something worth while.

Vocational service is important. Rotarians should do more than simply try to raise the standard of business service. They should endeavor to get men to believe in their work, to go at it with enthusiasm and with a desire to make the most of their particular job.

The Kingston Club was praised for the work they had done in the field of community service. The speaker emphasized the point that it is not necessary to do "big" things—it is the quiet, cooperative work that counts. He gave examples of the wrong kind of community work, where an attempt was made to do everything alone, instead of securing the help of other organizations and putting everybody to work. The cooperation between Rotary and Kiwanis in Kingston was praiseworthy.

Mr. Eldred devoted the closing portion of his talk to the great idea of international service. He disclaimed any thought of preaching pacifism, or anything of that nature, but thought all agreed there must be a better way to arrive at an understanding with those of other nationalities and to settle international differences than to send millions of men to death and lifelong suffering. Saying that Europeans have received an entirely wrong impression of America from tourists, he thought that Rotary could do much to combat this impression; that through its fraternal spirit people could be taught to know each other as they really are. He referred to a remark of a delegate from Peru to the Texas convention and quoted him as saying that it was the spirit of Rotary that had really been instrumental in settling the long and threatening Tacna-Arica dispute between Peru and Chile. Mr. Eldred declared himself a real optimist in regard to Rotary International.

President Hart thanked Mr. Eldred for his helpful, practical and inspiring talk, characterizing it as one "absolutely free from 'bunk' and one of the best we have ever had". He said that the speaker had told them just what to do in order to carry out the aims and object of Rotary.

GAS BUGGIES—Turned Down.

FRAUDULENT SUIT CLUB SWINDLES

In its nation-wide campaign to expose the activities of fraudulent advertisers and sellers, the National Better Business Bureau, Inc., 383 Madison avenue, New York, N. Y., that week issued a warning poster to industries on fraudulent suit clubs.

Suit clubs, the National Bureau points out, use the "something for nothing" appeal. Those who join these organizations obligate themselves to pay a certain amount weekly for a certain number of weeks or until they win a suit or overcoat. The weekly sum is usually $2 for a period of 24 or 25 weeks. Each week some member of the club is supposed to win a suit. It would thus be possible for a person to win after he has paid in as little as $2. Suit club promoters usually hold out the prospect of the member winning a suit or overcoat by the time he has paid in not more than $10 or $12 to the club.

In spite of these promises the National Bureau has found, through investigation hundreds of these schemes, that suits are seldom given away. Club members usually have to complete the full number of weekly payments. In some cases promoters of this type have been known to close the club's headquarters and abscond with the cash without having given a suit to anybody.

If the club does remain in business until members have paid up, the National Bureau has found, the promoters often make it almost impossible for the members to procure suits. They frequently will delay delivery on all sorts of pretexts and will make every effort to switch members to higher priced clothing attempting to collect the difference in cash, but if they can avoid trouble in no other way they will deliver a suit to the member. Every one of these suits examined by the National Bureau have been found to be worth much less than the price paid for them through the club. Usually they are of a poor fit and of inferior material. It would often cost more to have them put into wearable condition than they are worth.

Fraudulent suit club promoters, the National Bureau points out, are not giving anything away for nothing. Their sole object is to promote a scheme to defraud on the claim they are operating a suit club. The National Bureau urges people who are in need of clothing to deal with reputable firms who will stand behind their merchandise. Facts on suit clubs may be obtained from the National Bureau without charge and should be procured before membership is taken out.

Speeds Slate Quarrying

The wire saw has revolutionized slate quarrying in Pennsylvania. The general average of cutting is about twenty to twenty-five square feet per hour. The traveling speed of the wire is about fifteen feet per second.

CAN DISHWATER VIOLATE THE VOLSTEAD LAW?

Bartow, Fla., (AP).—Criminal court jurists of this vicinity must decide whether it is unlawful to possess dishwater with an alcoholic content of more than one half of one per cent. The question arose when Wiley Baggett was arrested. Officers said he saw them coming and smashed a jugful of liquor in a washtub. The deputies said the dishwater analyzed 5 per cent alcohol.

FOR NEARLY A CENTURY ONE OF AMERICA'S GREAT AGRICULTURAL AND INDUSTRIAL INSTITUTIONS

NEW YORK STATE FAIR

Syracuse, Aug. 26 - 31.

An Exposition for the Family; there is much in the way of Education and Entertainment for all.

The Eighty-ninth Fair will stand first, for the number and high standard of exhibits and for entirely new features of a striking character.

There will be much to interest the family from the rural district as well as the family from the big center of population.

You cannot see it all in one day or two days. If you choose bring your tent and camp on the grounds. Anything to get the benefit of this great fair.

The live stock and machinery shows cannot be matched on this continent. Over $100,000 in Premiums.

With the promise of a new building the Boy's and Girl's department will show plenty of spirit.

The exhibits in the State Institutions Building represent a year of hard work and a big expenditure of money.

The Dairy Show will have many new features including a 6-ton cheese.

The Harness Horse races will draw the Kings and Queens of the turf. Purses over $70,000.

Brilliant Night Show with 40 dancing girls.

Circus Acts including the Great Wilno who is shot from a cannon.

Cronlore's wonderful Band in daily concerts.

Outdoor Horse Show and Draft Horse Pulling Contests.

Championship Auto Race for 100 miles.

A five-dollar exposition for a general admission charge of 50c.

Half fare on railroads.

You can afford to bring the whole family.

Most colorful opening in Fair's history, Monday Aug. 26—Three Big Band Contests and the Essex Scottish Regiment, Crack Canadian Outfit in attendance.

Gamewardens Get Goat Getters

Toledo, Ore. (AP).—When James Cook and Lew Tillock went fishing they took a goat for milk supply. The goat broke its tether and unable to find it, the fisherman decided to hunt deer by flashlight. They heard a rustle and shot. The deer was their goat. Then two gamewardens arrested the men for attempting to kill game at night. They were fined $200.

Well Regulated Lightning.

Waycross, Ga., (AP).—A farmer near here arrived home one night, tired from a fast drive to escape an approaching storm. He said the lightning was the most peculiar he ever had seen in that it came with clock-like regularity and unaccompanied by thunder. Then the family realized he had been trying to outrun a storm in the wake of a revolving beacon for night flying.

STOMACH TROUBLE?

"DIASTATIC DEFICIENCY" AND "TOO MUCH ACID" CAUSE 9 OUT OF EVERY 10 ATTACKS

"DIASTATIC DEFICIENCY" (failure to digest starches), causes more than one-half the cases of stomach trouble. Because of this deficiency, potatoes, breads, macaroni, rice, breakfast cereals and other starchy foods remain in a semi-solid condition and refuse to move on as they should. This stoppage causes INDIGESTION, GAS, FERMENTATION, SOURNESS, SICK HEADACHE and other common troubles.

"TOO MUCH ACID" is the cause of almost all the remaining half of our stomach troubles. It also is the result of fermentation and excess digestive acids.

ACIDINE, the new discovery, is a perfect anti-acid combined with "Japtase," the most effective known starch digestant, one pound of which will digest more than 500 pounds of starchy foods.

ACIDINE is the FIRST COMPLETE REMEDY for STOMACH TROUBLE—an ANTI-ACID, STARCH DIGESTANT, MEAT DIGESTANT. At the same time it is safe and soothing to the most sensitive stomach. Slightly laxative but not unpleasantly so.

Sold by your druggist under a money-back guarantee to help in YOUR CASE, or write Health Laboratories, Inc., Pittsburgh, Pa.

ACIDINE

If you are told "It's just the same" say: No! I want OXOL for my housecleaning

Look for this label on the OXOL bottle and remember anything you are told is "just the same."

Nothing else is "just the same" as OXOL.

OXOL is *more* than merely a cleanser for laundry use.

True, it whitens clothes, removes stains and makes the clothes spotlessly clean. Yet, OXOL has many other household uses because it is a Cleanser, Disinfectant, Deodorant and Germicide—*all in one!*

There isn't a room in the house, from cellar to roof, where OXOL can't be used. Nor is there a household cleansing job too hard for OXOL.

So....if you're told something else is "just the same," tell your grocer: "No! I want OXOL for my housecleaning." And insist on getting it!

Fast Horse Racing at Ellenville Fair

(Continued from Page One)

Emma Aren	2	2	3
Nancy Worthy	3	3	3

The time for the mile was: 2:17¾, 2:20, 2:22¾, and 2:24.

The Rodeo Show.

The light harness racing started at 2:30 o'clock, and following the races California Frank's rodeo was staged on the running track in front of the grandstand. This proved one of the best shows ever put on at the fair. It opened with some fancy and trick roping by members of the troupe who showed how to lasso running horses, and also to leap through the whirling loop, and was followed with an exhibition of riding bucking horses. Then two of the more hardy of the rough riders took a turn at riding bucking steers down the track. The steers were imprisoned in a narrow pen and as the rider lowed himself upon the back of the beast the door of the pen was suddenly thrown open and the raging steer and its rider careened out into the track.

One of the big features of the rodeo was the exhibition of sharpshooting by Mrs. Frank while mounted on her steed, Napoleon, in which she broke glass balls hurled high in the air by a man on another horse.

Little Alvie Made Hit.

One of the featured performers of the rodeo is a dwarf who is known as Little Alvie. He gave an exhibition of roping and riding and also of shooting of a burlesque type that added a pinch of humor to the rodeo.

Dropped from Flying Auto.

Alvie's principal feat, however, was falling from the rear of an automobile driven at a rapid rate of speed along the race track. The car was driven by Mrs. Frank with Alvie perched on the spare tire hitched on the back of the automobile. Just as the racing car passed the grandstand Alvie loosed his hold and fell to the ground, sliding along for several feet before he stopped.

Feats of Trick Riding.

Another feature of the rodeo was the trick riding of two men and two girls. They did some particular hair-raising feats, showing not only their agility but their daring and horsemanship. Those who have seen the stunt riding of the State Troopers enjoyed the feats of the riders with the rodeo, for many of the feats of the Troopers were duplicated by the rodeo artists.

Bosco an Absentee.

As the horse racing did not start until 2:30 o'clock in the afternoon the early visitor at the fair had plenty of time to look over the Midway attractions and the exhibits of farm products. The Midway this year is so large that it has overflowed its space and part of it is located inside the riding track, where for years the Midway always held forth until the location was changed to the space adjoining the main exhibition hall.

A stroll through the Midway revealed all sorts of ways to spend money with various side shows showing all the freaks of nature and otherwise.

To those who have been attending the fair for the past twenty years one face was missed from the Midway. It was the face of Bosco, He Eats 'Em Alive, for several years now Bosco has not been in attendance at the fair, and no one seems to know just what became of him. Probably he has gone to join his fathers in that vast unknown.

A Three-legged Hen

In the poultry exhibit is a freak hen which is exhibited by Floyd Hallenbeck of Greendale. It is a three-legged hen, a cross between a Rhode Island Red and a brown Leghorn. The extra leg is attached to the body in the vicinity of the tail.

"What's the use of the third leg?" asked a visitor at the fair.

"She uses that to hand you the egg she has laid," replied one of the men in charge of the exhibit.

Pheasants Are Exhibited

An open pen of Amherst golden and silver pheasants and a pen of Chinese ring-neck pheasants, is exhibited by the New York State Conservation Department. The golden and silver pheasants are extremely beautiful birds. All of the pheasants exhibited are male birds, and their plumage is exceptionally attractive.

Exhibits Attract Many

Many people are attracted to the fair to view the exhibit of the farm animals and this year's exhibit is exceptionally fine, with most of the animals shown being Ulster county born and raised. Many of the business houses of Ellenville have exhibits at the fair this year, as well as other business houses in the county.

Crowd Large on Wednesday

The ideal weather that prevailed all day Wednesday brought out a large attendance at the fair, and those who attended say that the fair this year is even bigger and better than other years. There is no question, however, but that those who did attend enjoyed every minute spent on the grounds.

The evening exhibition of fireworks also drew out a large crowd.

Today and Friday also feature some fine harness racing.

Peasant Woman Still Active at 136 Years

Nemesded, Hungary.—Her age is one hundred thirty-six.

Her favorite occupation is cooking both for herself and for anyone who wishes to drop in and put his or her name in the pot.

Her most delightful pastime is to have all the village youths, maidens and children of Nemesded gather under the trees in her yard on Sunday afternoon and let her tell them of the "good old days when a girl's greatest ambition was to learn to cook and keep house so that she might some day make a home for a husband."

Her husband is dead—has been dead for forty years, in fact—and she has never had interest for any other man.

Her health is perfect—she boasts that she has not spent a day in bed for more than twenty years.

Her name is Mrs. Margit Hegyi, and she hopes to live at least ten years more in Nemesded.

France Using More Coins

Paris.—France is gradually cutting down the supply of paper money in circulation and substituting nickel pieces, which will be good news to the tourists, who get tired out with the various small notes of big and little denominations.

A Swedish toy balloon recently completed a trip across the Baltic sea, landing in Germany after a trip from Kvarnby.

Financial and Commercial

New York, Aug. 22 (AP).—The stock market, apparently having recovered from its fears of a large increase in brokers' loans this week, moved upward in brisk fashion today under the leadership of the high-grade rails and public utilities, more than a score of which established new high records. Gains in the active issues ran from 2 to nearly 12 points. Trading was fairly heavy.

Reduction in the call money rate from 7 to 6 per cent for the second successive day, coupled with an easier undertone for time money, also had a bullish effect on speculative sentiment. Wall Street generally was pleased at the continued high rate of steel output and freight car loadings.

While several conservative commission houses continued to urge a lightening of long commitments on the theory that many stocks were "over bought," others continued to advise the purchase of the railroad and industrial leaders on the theory that large blocks of these stocks are being taken out of the market by investment trusts and that a scarcity in the floating supply, coupled with expanding earnings, indicated further sharp advances.

DuPont ran up 11¼ points to 207½, Warren Brothers 11 to 182, Commercial Investment Trust 9 to 206¾, Westinghouse Electric common 6¾ to 200½ and the first preferred 7 to 250. Pacific Gas and Electric climbed 6¼ to 84¾, Pere Marquette 5 to 215 and Woolworth 4 to 96¾. All were new high records. Bethlehem Steel, Southern California Edison, Sparks Withington and General Railway Signal also moved into new high ground.

Extreme gains of 5 to 11 points also were recorded by Air Reduction, Federal Light and Traction, General Electric, Johns Manville and Stone and Webster.

Railroad equipment shares gave a fairly good exhibition of group strength on buying influenced by reports of expanding operations and large unfilled orders.

Advance Rumely issues turned weak, although most of the other farm stocks were strong.

Quotations given by Parker McElroy & Co., members N. Y. Stock Exchange, 120 Broadway, New York city, branch office, Stuyvesant Hotel.

Wild Life in Binghamton.

Buffalo, Aug. 22 (AP).—Binghamton's "lion" turned out to be a police dog. East Aurora's coyote is dead, but still a coyote. So affirms William Baker, custodian of the Kennedy Game Preserve, who shot the beast. During the past month numerous fowls vanished from the preserve. Curtodian Baker laid the marauder low last night. "I'm sure it was a coyote," he declared. "It had a long nose, bristly hair, a gaunt body and long legs. Morris W. Brackett, State Conservation Department Inspector here, said coyotes were shot in Orleans county some years ago.

Differences in Dancing

According to a dancing expert, there is no difference between clog and tap dancing in the modern sense. Tap dancing is sometimes called clogging. These dances are composed chiefly of motions of the feet which result in combinations of various sounds made by different parts of the foot tapping or beating on the floor, and these sounds or beats are called taps. Clog dancing is a more general term.

Tibetan Woman a Worker

A married woman in Tibet not only manages her household and does the light housework, but she even helps erect her home. Cooking, sweeping and water carrying do not encompass her tasks. She helps the men sow, reap and plow, and develops her muscles by cutting firewood and carrying huge bundles to her abode.

THE JOKERS

News of Interest to Members of Fraternal Societies

Detroit, Aug. 22 (AP).—Albert H. Lasker, Jr., of Philadelphia, was elected supreme dictator of the Loyal Order of Moose at the forty-first annual convention here. Other officers elected were Frederick Zihlman, of Cumberland, Md., supreme vice-dictator; Henry W. Busch, Detroit, supreme prelate; Malcolm R. Giles, Moosheart, Ill., secretary; Harry W. Hate, of Pennsylvania, treasurer, and George N. Warde, Moosheart, general dictator.

Earthquake Started Springs.

Attica, N. Y., Aug. 22 (AP).—Although the earthquake of August 12 caused thousands of dollars of damage here, it did the village a good turn, according to Charles Slack, superintendent of the local waterworks. The two reservoirs storing the village's drinking water, which had been depleted by the protracted dry spell, have been overflowing since the temblor and streams which had dried up were running at almost spring freshet force, he said.

Trampled To Death By Bull.

Binghamton, N. Y., Aug. 22 (AP).—Minos Harougunian, 55, farmer, was trampled to death by a bull while alone on his farm at Tunnel, 15 miles northeast of Binghamton, yesterday morning. Neighbors cornered the bull in a field on the Harougunian farm and Ivan Hurlburt, of Tunnel, shot the animal.

Cub Captain Out of Game.

Chicago, Aug. 22 (AP).—Charley "Slug" Tolson, powerful right-handed first baseman with the Los Angeles Angels, will play first base for the Chicago Cubs during the remainder of their pennant drive, replacing Captain Charley Grimm, whose left wrist was fractured Tuesday.

Chicago property owners are to pay smaller taxes as result of a reassessment.

Local Death Record

Effie Louise, infant daughter of Mr. and Mrs. Charles Wentworth, died at the home of her parents in Wittenburg on Monday, August 19. Funeral services were held at her parents' home on Wednesday, August 21, at 2 p. m. Interment in Woodstock Cemetery.

Mrs. Margaret Murray, nee Rourke, died Wednesday at the home of her daughter, Mrs. Joseph Smith of West New York, N. J. She was the widow of Owen Murray and is survived by five sons, Bernard and Thomas of Kingston, John of Albany, Joseph of Torrington, Conn., and James of Jersey City, N. J.; two daughters, Mrs. Joseph Smith of West New York and Sister M. Flavia of St. Joseph's Convent, Newburgh; one sister, Mrs. Catherine Kiernan of Hoboken, N. J. Funeral here Friday upon the arrival of the 2:15 p. m. West Shore train. Interment in the family plot in St. Mary's Cemetery.

NEW YORK ENTERTAINERS FOR WOODSTOCK CONCERT

For the coming Musical Revue announced to be held at the Woodstock Playhouse, on the grounds of the Country Club, on Sunday night, August 25, a large and varied bill of entertainers has been announced for an evening's concert probably including more theatrical stars than have ever before appeared on one Woodstock stage.

From the Metropolitan Opera House there will be Pierre Henrotte, concert master, who will conduct a large symphony orchestra, engaged for the occasion; there will be Alexis Kosloff, ballet master, who will conduct a ballet dance, and also appear in solo numbers.

From Roxy's Theatre there will be a charming young lady, Miss Margaret McKee, known to radio audiences as "Mickey." Miss McKee has an enviable record as a whistler and singer who does bird imitations and other whistling acts; she has made two European tours, has appeared in London in the Bailey Theatre under the patronage of the Duke and Duchess of York; she has toured with Harry Lauder, appeared in a Hippodrome revue and in Ziegfeld's in "Anna Dear." She is at present a member of Roxy's radio Gang.

Miss Jane Meredith, Playhouse actress, will appear in a sensational one-act play. Rene and Laura Weilde, sisters, will appear in a duet number. Ruth Schrader will present a solo dance. Lee Morse, famous "blue-song" singer of the Keith circuit, has donated a specialty number. Miss Morse was born in Kentucky, and attributes her jazz singing talents to her early association with the colored songsters of Kentucky. She is known to radio audiences; has appeared at the Palace Theatre in New York city. She is booked for a tour of Europe soon after her appearance at the Woodstock Playhouse on August 25th.

Other entertainers of this gigantic bill include Gladys Billings, Bill Simmons, Chas. King, Bob White and Raoul Vidas. "Carmelita," a Spanish Dancer, and the Pollock sisters on two pianos, will also appear on this unusual, and monster variety program.

Counsels and Attorneys to Meet.

Albany, Aug. 22 (AP).—The New York State Conference of Mayors today issued a call for a meeting of corporation counsels of all cities in the state and the village attorneys of all the first class villages, to be held in Albany September 10. The purpose of the meeting is to consider the advisability of the creation by the legal representatives of the municipalities of a committee to prepare and submit recommendations to the temporary legislative commission appointed by the last legislature to study and investigate the operation of the public service commission law.

Coste Postpones Record Flight

Le Bourget, Aug. 22 (AP).—Dieudonne Coste, famous French flier, had his plane removed from Le Bourget to the Villacoublay airfield today. This move was generally interpreted here as meaning indefinite postponement of any attempt to make a record-breaking flight for the time being.

Close friends of the flier said he was disturbed by publication of his plans yesterday. They even added some pressure may have been brought upon him from official air quarters to abandon any flight plan which would tend to detract from the Graf Zeppelin's achievement or make it resemble a race.

The French flier, returning from a protracted conference with General Delcambre, French weather expert, announced he was returning to Villacoublay, there being no chance to start in less than 48 hours because of weather conditions.

SWISS AVIATOR'S FAMILY GIVE UP ALL HOPE

Aarau, Switzerland, Aug. 22 (AP).—The mother and sister of Kurt Luescher, missing Swiss trans-Atlantic aviator, today gave up hope of seeing him again, and accepted what they considered the will of providence.

Neighbors greatly admired the mother's stoicism. She told them that when she agreed to her son becoming an aviator, she realized she must be prepared for all hazards.

Rescues Crew of Quimistan.

New York, Aug. 22 (AP).—Captain J. H. Benson, master of the Dollar liner President Harrison, wirelessed today that his men had rescued the entire crew of 26 men of the German steamer Quimistan which caught fire in mid-ocean.

Coarse Mesh Nets Add to the Season's Fabric Interest.

New York—One of the biggest talking points of the new season is that of its fabric interest. Such a variety of materials as there are. Quite unlike the days when women wore crepe de Chine around the clock. Since net has entered the field for evening and met with success, it has pleased daring dressmakers of Paris to launch it for afternoon, the preference, this season being for coarse meshes. There is even a wool net, and one hears a good deal about embroidered nets as well.

At the moment it may seem perplexing to determine the correct length for one's skirt, but as just about all lengths from knee to ankle are sponsored, it resolves itself pretty much into an individual decision. Of course evening dresses are longer than day time frocks, and sports dresses shorter than both.

Molded bodices with some hint of a waistline make a safe choice, one may venture on shirrings that suggest the normal line, or even dare a slightly higher placement. With few exceptions, hips are rather snugly fitted and in the matter of sleeves there is almost as much leeway as in skirts. They are usually long and fitted. Lanvin introduces rather spectacular effects, the long fitted sleeve cut to cover the back of the hand, and the leg o' mutton sleeve which may employ one color above and one below the elbow where the sleeve widens out.

TWO DEEDS RECENTLY FILED WERE EXECUTED 69 YEARS AGO

Two deeds dating back to the days of the Civil War have been filed in the office of the county clerk. Both deeds, for property in the town of Marbletown, are well preserved though yellowed by the years that have passed. Both are written in ink and are still very legible, showing that they have been well cared for. The deeds are from Luke I. Roosa and wife of the town of Marbletown to William Roosa, also of the town of Marbletown and convey property in that town. One deed for a half undivided interest in a property bears the date of May 26, 1860, and the consideration is $300, while the second deed is dated March 30, 1865, and the consideration mentioned in that document is $500.

Education's True Purpose

The aim of education should be to teach us rather how to think than what to think—rather to improve our minds, so as to enable us to think for ourselves, than to load the memory with the thoughts of other men.—James Beattie.

Hay Fever

Home Treatment

If you want a really effective treatment for Hay or Rose Fever go right to McBride's Drug Store and ask for a bottle of Opex.

Spray the nostrils two or three times a day—oftener if necessary.

You'll be surprised and delighted—not only will Opex soothe and heal the raw inflamed membrane, but it will promptly stop the humiliating discharge. If it fails, get your money back.

If you start to use Opex now the expected attack may not appear—this happened in many cases last year.

The price is but $1.00 and McBride's Drug Store will gladly tell you all about it.

Smooth Fitting and Snug Without Waistline Pressure

Delightful in comfort, adding smart smoothness to clinging gowns—these new Luxite glove silk bloomers and panties with Nobelt Waistband will be a revelation to you. Instead of ordinary elastic, curling after washing, bunching, wrinkling, binding, leaving ugly pressure marks—the waistband is smooth, wide, resilient, conforming gently to the lines of the figure—giving security without discomfort.

Only Luxite uses this patented Nobelt Waistband in glove silk lingerie, giving all this superior comfort and style at no higher cost.

Luxite Nobelt styles, with properly tailored brassieres to match, are now on display in our Glove Silk Lingerie Department.

OUR DAILY PATTERN.

A Pretty Summer Frock.

6462. This will develop well in the new printed silks, georgettes and chiffons. It is also good in organdie and silk crepe. The flare skirt is mounted on an underbody to which the sleeves are joined. One may have the fitted sleeve or the bishop sleeve with soft fullness gathered to a band cuff. The waist fronts are lapped in surplice effect, and are draped at the hips in upturned plaits below crosswise slashes that hold gathered fulness in blouse effect. A huge sash bow ornaments one hip.

The pattern for this pleasing style is cut in 6 sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. To make the dress for a 38 inch size will require 4¾ yards of material 39 inches wide or wider. For vestee of contrasting material ¾ yard cut crosswise is required 39 inches wide. The underbody of lining requires 1¾ yards of 32 inches wide. The width of the dress at the lower edge with fulness extended is 2⅞ yards.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

SUNSET SOAP DYES

Tagging Major League Bases

By WILLIAM J. CHIPMAN
Associated Press Sports Writer

The Cubs slapped three Giant pitchers for fourteen blows at the Polo Grounds yesterday to win by 9 to 2 as the Pirates submitted to their daily cuffing by the furious Phillies. The net result of these proceedings was to increase the margin of the Cubs to ten and one-half games.

McCarthy placed young Clarence Blair, the Little Rock recruit, in temporary charge of first base, in place of Charley Grimm, whose throwing arm is fractured, but dispatched a hurry call for Charlie Tolson, optioned to Los Angeles by the Cubs thought of seeking George Sisler of Boston in one of those waiver deals which some clubs know how to engineer late in August.

Charlie Root presided over the obsequies at the Polo Grounds, giving the Cubs their third victory from the Giants in four games. Benton, Mays and Judd were placed in the line of Chicago fire. Riggs Stephenson and Kiki Cuyler responded with home runs, Stephenson totaling three hits for the day.

Young Harry Smythe of Asheville again put the finishing touches on the Philly victory, but official credit went to Phil Collins. The score was 10 to 8, giving Burt Shotton's boys four straight over Bush's men.

All the rabbit blood was extracted from the ball they used in Brooklyn yesterday, and young Clise Dudley pitched the home team to a 1 to 0 triumph over the Cardinals, who thus fell below the .500-mark. Dudley scattered six hits. Clarence Mitchell permitted Del Bissonette to single in a first-inning crisis which yielded the game's only run.

The Braves divided a double-header with the Reds, winning the first game by 7 to 1, and permitting the visitors to edge out the second by 8 to 7. The Braves thus remained in the cellar, which they now hold by a margin of two full games under the rampaging Phillies.

Both the Giants and the Robins hope to advance one notch in the standing of the clubs before October 6, and each team has the same grade to make. The Pirates are in second place by five games and the Cardinals in fourth by the same margin. The clan McGraw opens a hand-to-hand struggle with the Buccaneers at the Polo Grounds today, while the Robins hope to wring heavy toll from the Reds, who have been looking up a bit lately.

The Athletics surprised American League circles by dropping a series to the Browns yesterday through the medium of losing the final game by 7 to 5, but the Yankees permitted the White Sox to win by 4 to 3, leaving the standing of the first two clubs unchanged. The A's lead by twelve games.

It becomes increasingly apparent with the passing days that the Yankee record of 110 games won and 44 lost in 1927 is comparatively safe. To beat it now, the Macks must take no fewer than twenty-eight of their remaining thirty-six games. The old Cub record of 116 victories in 1906 is safe beyond everything but the last mathematical certainty.

Mr. Mack employed Walberg, Earnshaw and Orwoll against Rip Collins yesterday to no avail. Of more importance to the Browns than the victory itself, which merely kept them close to the Indians, was the injury of Heinie Manush and Fred Schulte, who crashed into each other while chasing French's fly in the fifth. Manush suffered a broken nose. He will be out for two weeks, but Schulte may return to the line-up within a few days.

Young Wesley Ferrell stopped the Senators cold with his second successive four-hit game, the Indians winning by 3 to 1. It was Ferrell's fourteenth victory.

Detroit slammed Bayne and Carroll hard to win the final from the Red Sox by 13 to 2. Uhle was the winner.

"Big Train" Again Signs as Pilot

Walter Johnson Signing Contract to Manage Washington Club While Clark Griffith Looks On.

Walter Johnson will manage the Washington club next year and the year after, according to an emphatic announcement by Clark Griffith, president of the club.

"I am getting tired of reading rumors about our club," Griffith said. "We are in the experimental stages. Johnson will go through with his three-year contract. He will have complete charge of salaries and all other details incident to the personnel of the club."

Griff's announcement came in the wake of rumors that Walter Johnson would be relieved of the management of the club.

"Not only will Walter fulfill his three-year contract as manager, but he will be given more power than he is shouldering now," Griffith said. "He will take over the task of fixing the salaries of his veteran players for next year. This is quite an unusual distinction for a manager, I believe, but I want everyone to realize that Walter is boss.

"He is to rule with the iron hand. He has full jurisdiction and there will be no outside interference. The public sooner or later will wake up and realize that he is a real leader and not a figurehead. One who has never been manager finds it takes time to become accustomed to the position, but once he gets the hang of it, I look for him to do things in a big way.

"I have the utmost confidence in him and I'm going to see that he gets every chance to make good. He has never failed me yet and, if I know anything, he won't now."

Alverez Ready For Freeman

Rufino Alverez, the flashy Spanish heavyweight, is all set to take the measure of "Big Bill" Freeman, champion of the New York National Guard, Friday night when the two meet in the feature 10-round attraction at the Kingston Fair Grounds.

Alverez, known as one of the fastest heavyweights that ever fought in the city of Tampa, Fla., wound up his training today at Doc Studer's gym and according to those who have worked with him and seen him perform the husky Spaniard is in the best condition of his career.

Manuel Quintero, Tony Leto and Joe Pino, who know Rufino better than any one around these parts, having worked with him previous to some of his big battles in the sunny South, vouch for the statement that Alverez is in tip-top form and bank on him to finish the scrap early.

Rufino will go to work at the outset of the scrap, as is his usual procedure, and try to put the finishing touches on the big negro who has bowled over most of the National Guard scrappers that crossed his path. This is where local fans will see action galore for Alverez is known for the ginger he puts into his scraps regardless of the situation. Winning or losing Rufino always dashes in and pounds away at his opponent.

Gene Conway, handler of the soldier scrapper, expects "Big Bill" Freeman to "put the boots" to Alverez. He has not stated in what period of the fight his ebony heavyweight is likely to be victorious, but he does count on a knockout victory for his man. On the other hand Conway has no fear about the decision if the scrap goes the limit.

Freeman, fresh from a victory over the Greek Tarzan, Georgie Neron, whom he defeated in the local ring, is said to be in the "pink" of condition for Friday's fracas.

The Alverez-Freeman go will be supported by bouts that promise plenty of action. The show is scheduled to start at 8:15 o'clock and if bouts go the limit the evening's program will last for 34 rounds.

Sport Slants

By Alan J. Gould,
(Associated Press Sports Editor.)

Like most other marks in this fast-moving era of sport, the half-mile running record likely will fall under the flying feet of some new Mercury but the two men most capable of knocking it off quickly, Douglas G. A. Lowe of England and Lloyd Hahn of Nebraska, apparently have hung up their spiked shoes for good.

It took a dozen years for Ted Meredith's old record of 1:52 1-5 to be lowered to 1:51 3-5 by the galloping German, Otto Peltzer. Hahn ran the "880" in 1:51 2-5 on a banked indoor track a year and a half ago but unfortunately indoor performances have no official standing in the blue-book of international records.

Lowe seemed capable of a world's record last summer. He made a show of Hahn, as well as Peltzer at Amsterdam in the Olympic 800-meter finals, setting a new record. Shortly afterward, at Stamford Bridge, on a terrifically hot afternoon and after one hard race, Lowe reeled off his half-mile leg of a relay in close to 1:50. He had the aid of a running start but he wasn't extended. Had he been given the chance for an official try that day, it seemed Lowe might easily have cut two seconds off the record.

There have been few greater competitors or more graceful striders than black-haired Douglas Lowe of Oxford. He likes to run, "for the sport of it", but he prefers now to concentrate on the more serious business of becoming an English barrister while Hahn turns to farming.

Relief pitchers seldom make good starting pitchers. Some time ago I asked Bucky Harris the reason for this. Bucky handled one of the best relief men of them all, Firpo Marberry, who helped Washington win pennants in 1924 and 1925.

"There must be something psychological about it or else it is like the fellows who prefer attending to other people's troubles than to their own," said Bucky. "Marberry always acted to me as though he didn't feel at ease unless he went in there with the bases jammed, no one out and the ball game at stake. Put him in there at the start of a game and he usually would feel so lonesome he would fill the bases. The trouble was he didn't solve his own troubles as well as these some other pitcher left for him."

The Brooklyn ditch-digger Fabrizio who took only 20 putts for an 18-hole round in the national public links golf championship tournament at St. Louis, with the startling total of 16 one-putt greens, set a record for title play or any kind of competition. There's nothing even remotely resembling such a feat in the record books. In the last American open, Gene Sarazen took only 11 putts for a nine-hole stretch, including seven one-putt greens, but Gene needed 27 for the round. Normally, putting is just half of any golf battle, with champions at their best averaging around 30 to 32 putts per round.

44 MERMAIDS READY TO SWIM AT TORONTO

Toronto, Aug. 22 (AP).—Forty-four mermaids were ready today for the ten-mile swimming marathon off the Exhibition Park seawall in Lake Ontario tomorrow afternoon. This number passed the physical test yesterday when physicians examined forty-five entrants. The only young woman to fail was Ione Lett of Memphis.

Miss Lett had entered the lists with her mother, Mrs. C. N. Lett. The daughter's blood pressure was found to be 106, and physicians said this would prevent her from swimming in water colder than 60 degrees.

Among the notables entered are Ethel Hertle and Martha Norelius of New York; Doris Bedford and Olive Gatterdam of Toronto; Ruth Towers of Denver; Dorothy Widmer of Seattle and Della Sullivan of Holyoke, Mass.

After inspecting the course yesterday, veteran competitors said they expected the water to be much warmer than the specified 58 degrees. If it is colder than the agreed 58, the swim will not be held.

Industrials Play At Poughkeepsie

The Industrials, who have been making a record for themselves, will travel to Poughkeepsie Friday evening to meet the strong Silver and Gold outfit of that city. Phil Ryan or Ken Best will do the pitching for the Industrials, with Smedes behind the bat. Brennan is slated to toss for the Poughkeepsie team.

P.O.-Apollo-W.S. Game Postponed

The P. O.-Apollo-West Shore game has been postponed once more, this time until Monday night. This is the fourth time the game has been postponed and it is hoped that the two teams will be able to settle their big argument Monday at the Athletic Field.

Rural Credit Reform Gives Co-op Council Chance To Make Good

C. O. Moser (upper right), cotton man selected to head national forum on problems common to farm cooperatives. Charles W. Holman (lower right), dairy representative instrumental in creating the National Cooperative council and who acts as its secretary. Paul S. Armstrong of the fruit industry (upper left) and J. J. Knight (lower left), grain man, prominent among the directors.

By FRANK I. WELLER

Associated Press Farm Editor

Washington (AP).—Proposed reform in the three major branches of rural credit may give the newly authorized National Cooperative council an opportunity to prove its worth.

Ratified at the annual meeting of the American Institute of Cooperation in Baton Rouge, the organization, which proposes to coordinate farm thought on matters of national policy, waits only to incorporate under the most favorable laws. It may choose the District of Columbia or one of the states.

The council originally was to have been known as the National Chamber of Farm Cooperatives. It is to be a forum for discussion of cooperative problems and to act for agriculture much like the Chamber of Commerce of the United States acts for industry and business.

While no such plans have been officially announced, it is believed the council may give attention first to the questions of rural credit.

Of the three major types, "productive credit" is taken care of fairly adequately by the intermediate credit banks, operating largely through agricultural credit corporations which borrow money from the banks and make long time loans at low interest to farmers to help them through the productive period.

"Commodity credit" is handled by intermediate credit banks and federal reserve banks which make loans direct to cooperatives. The national banks lend up to 90 days but the intermediate banks lend not less than six months.

There is a great demand among commodity groups for intermediate credit bank loans of as little as 60 days. They handle their products quickly and do not need six months loans. Neither do they wish to pay the higher rates of interest at national banks for short time loans.

The third class of credit is that which cooperatives need for expansion of physical properties. Many hold that the federal farm board inadequately approaches solution under its plan of providing loans for acquirements of new facilities.

They believe it will be hard for cooperatives to get such loans unless the board makes a broad construction of the agricultural marketing act.

Some cooperatives hold that loans should be made on a basis of total assets of the association seeking them and be flexible enough to permit use of the money in lifting mortgages, acquiring bargains and effecting consolidations.

Directors of the council will meet in Washington, probably in the fall, to select committees, prepare a budget and name a headquarters city. The council is organized on a divisional basis, the cooperatives representing each major commodity.

The council is not connected with the farm board.

Kingston Youths Enjoying C M T C

The five Kingston youths among the 1,800 taking training at the Citizens' Military Training Camp at Plattsburg are enjoying the experience very much according to word received here recently. Those from this city at the camp are David Canfield, Harold Gilday, John Burgevin, John Crosby and Ward Brigham.

One of the boys in a recent letter described camp routine, which is as follows: Reveille at 6 a. m.; breakfast, 6:30; morning inspection with a prize for the neatest tent, platoon and company; exercises and drill; regimental review and drill at 11:30. Colonel Madden and his staff preside.

After the morning's routine the "hungry mob" flocks to the mess hall, where meals that make the boys put on extra poundage are served. In the afternoon instruction classes are held for the blue and white candidates and games are played by the reds and basics. A regimental parade is held twice a week at 4:30 p. m.

Supper is served at 6 p. m. When the meal is finished mail is distributed. This is a time enjoyed by all for a word from home or a package of "goodies" is a welcome factor in camp life. The rest of the evening is spent at the post movies, a dance or a trip to town. Army discipline rules, however, and each soldier is required to be in camp by 9:45 o'clock. Taps sound at 10 o'clock and the lights are dimmed. Every man is in his bunk to enjoy a good night's sleep that prepares him for another day of new lessons, experiences and pleasures.

They Called Her Scrawny But Not For Long

Is your face drawn and pinched? Your skin flabby? Are your cheeks sunken with great hollows under the eyes? Does your figure show unbecoming angles instead of the softly rounded slimness of youth?

All these conditions rob you of attractiveness and make you look old. But worst of all, these may actually be the symtoms of simple anaemia—that dread ailment so often suffered by women.

There's nothing so good as McCoy's Tablets to put on firm flesh, round out face and figure and build up rich, red blood.

So if you need a few pounds of flesh to round out the hollows, if you want to get back oldtime energy and health, get a box of McCoy's Tablets today. Just a short treatment will make you look and feel like a new person.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 sixty cent boxes of McCoy's Tablets or 2 One Dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

Firemen Sure To Win at Utica

With all the confidence in the world and a victory under their belt, the Kingston Fire Department will go to Utica Saturday and try to give the fire department of that city the same dose that they got down here Monday afternoon. This is the second game of the series between the two companies and Manager Ed. Gillen is in hopes that his men will return with the big end of the score.

On the other hand the Utica men stated when leaving this town Monday, that they were sure of evening the series by taking this battle Saturday. On the side, the up state pitchers want to be warned against tossing them within reach of Ed. Gillen's bat. Ed. is a big man and to connect with the ball, it would be quite a problem to determine just how far it was going, but it would be a home run at least.

At Eddyville Tonight.

There will be benediction tonight in the Eddyville Church followed by a meeting at Mrs. Mooney's house of willing workers to make the Raggety Ann Dance on Saturday, August 31, a great success.

Receipts from boxing bouts in Missouri during July were more than double those of the same month last year.

Market for Fruits And Vegetables

New York, Aug. 22—(State Department of Agriculture and Markets)—The wholesale market on domestic red and yellow onions was steady today, particularly on good quality stock. Trucked in supplies from Orange county, New York, were moderate. Jobbing sales through the receivers' stores on hundred-pound bags of red and yellow onions were reported at $2.00-$2.50.

The onion production in 16 late shipping states is now forecast at 18,562,000 bushels. This would be almost as many onions as were harvested in 1927. New York, Ohio and Michigan show the largest gains over 1928 in the east, and Colorado may have nearly twice as large a crop as last season.

Low prices featured the market on upstate lettuce. Supplies were in excess of trade requirements. Crates of two dozen heads of the big Boston variety peddled out principally at .50-.75 cents.

This state last week started 267 carloads of lettuce to numerous consuming centers.

The demand was moderate for tomatoes. Arrivals from the Hudson valley were light with the market without decided change. Carriers of six four-quart baskets sold mainly at $2.00-$3.00 and twelve-quart baskets at $ .75-$1.15.

The tomato crop in 15 late states is expected to total 5,874,000 bushels, or 2,120,000 more than last season. This would be an increase of 56 per cent. The average yield per acre may reach the high figure of 161 bushels.

Sharpest gains in production appear in northern California, Indiana and Maryland.

The season's first California red raspberries and strawberries were received today. Te fruit showed excellent quality and met a moderate outlet at 30 cents a pint for the strawberries and .12-.15c for the red raspberries.

Western New York cut carrots were in moderate receipt but continued to receive little attention. Unleashed muckland stock jobbed out at $1.00-$1.25 per bushel basket. Cut beets and white purple top turnips reached $2.50.

ST. PETER'S PARISH PICNIC NEXT WEEK

Wednesday afternoon and evening, August 28, is the time set for this year's grand Summer festival, to be held in St. Peter's School and on the school grounds. It is exceptional how succesful the workers have been in procuring the various articles that make for the grand outcome of such an affair.

There will be games and races for the children with prizes for the winners. Various booths will be arranged for the amusement of all who attend. Refreshments of all kinds will be served all the while and around 5 o'clock the ladies will be ready to start serving a delicious old-fashioned menu, that the German people know best how to prepare. Music will be furnished for dancing throughout the evening after meals have been served. About 7 o'clock the men will be waiting for the bowlers to visit the freshly cleaned alleys to contest for the beautiful prizes secured for the ladies' and gents' prize bowling. Later during the evening prizes will be awarded.

Every parishioner and the public is cordially invited to attend this gala event. It will be held rain or shine. Everybody will be able to eat at the school.

Eleanora's Dovecote As Movie Man's Bride Is Castle On Hudson

When Sam Katz, who heads a cha in of 1,300 movie houses, and his recent bride, Eleanora, dancing part ner of the late Maurice, return from their honeymoon they will reside on a New York estate which has a private theatre and on which the buildings are artificially cooled in summer.

New York (AP).—When Sam Katz was a boy in high school on Chicago's west side, back in 1908, he used to hurry from classes to a dinky nickelodeon in the neighborhood, where for $16 a week he played the piano from supper time until the last show was over.

And when Romance flickered on the screen in the little movie house that had been a grocery store, Sam lapsed into the melody of "Castles in the Air", and conjured from the twanging keys a vision of the castle he was going to build some day.

He is building it now, on a mountain side above the Palisades of the Hudson near New City, N. Y. It will be ready in a few months for him and his bride.

His bride is Eleanora Ambrose, the dancer. When Sam was playing a nickelodeon piano she was Eleanor Puckett, daughter of a Newton, Kas., merchant policeman. She came to New York; she met, danced with and married Maurice Mouvet; and for one lustrous year, until Maurice's death in 1926, she shared with him the mantle of the Castles and the applause of supper-club habitues from Broadway to the Riviera.

Katz played the piano until he had saved money enough to buy the nickelodeon. Then he took into partnership his father, Morris, a Jewish barber, who had brought his family of six to Chicago, from Russia when Sam was four months old. They saved, bought more nickelodeons, and went into partnership with the four Balaban boys.

Twelve years ago the partners built in Chicago the first of the de luxe motion picture houses which now dot the nation.

The mansion that Sam Katz is building for his bride is the central edifice on an estate which encompasses a mountain on the west bank of the Hudson river 25 miles above New York.

The estate also has a hundred-room manor for guests, a sumptuous theatre of its own, stables, tennis courts and swimming pools, a garage with space for 150 motor cars—even an air-cooling plant to keep temperatures temperate in all buildings on torrid summer days.

Watch Tongue For Signs of Illness

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90 per cent of all sicknesses start with stomach and bowel trouble.

Look at your TONGUE every morning!

A white or yellowish coating on your tongue is a danger signal of those digestive disorders. It tells you why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

And it's a sign you need Tanlac. This good old reliable medicine has helped thousands who were physical wrecks. See how the first bottle helps you.

Tanlac contains no mineral drugs; it is made of barks, herbs and roots—nature's own medicines for the sick. Get a bottle from your druggist today. Your money back if it doesn't help you.

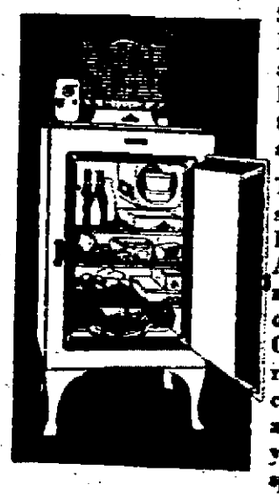
More than 200,000 owners and not one has spent a single dollar for repairs or service!
THIS RECORD STANDS ALONE
..we challenge comparison!



So far not one owner of a General Electric Refrigerator has had to pay a single dollar for repairs or service. It is General Electric's answer to those who ask "Is electric refrigeration out of the experimental stage?"

The simple, worry-free, hermetically sealed mechanism of the General Electric was hailed as revolutionary. And, indeed, it has established entirely new standards of service, of quiet operation, of economy. Today the General Electric is the one and only refrigerator which has an all-steel cabinet—warp-proof and rugged as a safe. See this refrigerator. And, if you are interested in conveniently spaced payments, ask about our plan.
